

NAVY 07073

**NEW! High Yielding
Direct Harvestable Navy
with Good Dry Down and Maturity**

- Excellent upright architecture suitable for direct harvest.
- Good Dry Down
- Matures 92-96 days or about 5 days earlier than HMS Medalist**
- Approximate seed count is 2,557 sds./lb.***
- 07073 has demonstrated good canning characteristics.
- 07073 has the "I" gene for bean common mosaic virus and has shown resistance to rust in the CSU rust nursery.

07073 is a broadly adapted navy bean variety ideally suited to Michigan and Ontario production regions. A consistent performer throughout the trialing process and in commercial production, its upright architecture, good dry down, earlier maturity and excellent yield potential make it an excellent direct harvest choice for Michigan and Ontario growers.

07073's economic benefit over HMS Medalist is its earlier maturity while maintaining the yields growers have come to expect from HMS Medalist. 07073's earlier maturity allows the grower to replant or plant later, stagger harvest, and minimize risk due to weather. days earlier.
