Soil pH:	
P205:	
K20:	
* Soil Type: Coarse	
Manure Type:	
Man. Gal/Tn/Ac	

**Comments**

This plot was harvested early for high moisture corn for feed. Field was extremely dry for previous 6-7 weeks prior to harvest. We cut the field across to harvest the back 760 ft. of length for silage, leaving the front 282 feet left for grain to test it for yield. Croplan 4975 was the check, as you can see there is a wide range of soil variation from one side to the other.
